ABOUT BJUT

Beijing University of Technology (BJUT) was established in 1960, in the southeast area of Beijing. It is a high-level multi-disciplinary research university providing programs in science, engineering, economics, management, literature, law, art and education, with engineering as a core focus. In 1981, BJUT was approved as one of the first universities in China to confer Master's Degrees. In 1985, BJUT was approved to confer Doctoral Degrees. In 1996, BJUT entered the list of key universities in the national "211 Project". In 2017, BJUT officially entered the list of universities in the national "Double First-Class" Initiative.

College of Economics and Management opens ***English-instructed*** undergraduate program ***International Economics and Trade for International Students.*** Set against the backdrop of economic globalization and Beijing's development as an International Exchange Center, the undergraduate degree program in International Economics and Trade (English) leverages Beijing's new opening-up strategy and aims to cultivate well-rounded talents with solid specialized knowledge, familiarity with China's economic policies and international market environments, innovative and entrepreneurial spirit, social responsibility, professional ethics, and an understanding of Chinese business culture. This program adapts to new international business trends, specializing in two areas: ***Digital Trade*** and ***Brand Economics.***

COLLEGE OVERVIEW

Founded in 1997, the College of Economics and Management comprises four Departments: Management Science and Technology, Applied Economics, Business Administration, and Law. It offers nine undergraduate degree programs: International Economics and Trade, Economic Statistics, Finance, Big Data Management and Application, Information Management and Systems, Accounting, Business Administration, Marketing, and Law. Notably, three programs—International Economics and Trade, Information Management and Systems, and Accounting—have earned recognition as national first-class undergraduate degree programs. The College is actively pursuing AACSB international accreditation, which it expects to obtain in 2026.
